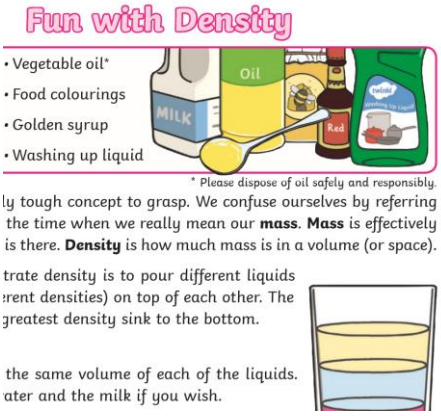
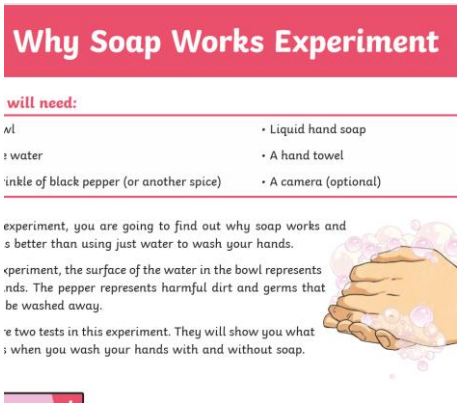
Experiment ideas

A storm in a glass! A water cycle in a jar! Fireworks in a cup! Try a range of science experiments that you can do at home! Click on the logos below to go to the corresponding websites to find out more.

Experiment worksheets

Still want to try some more experiments? On the Cumberworth First School home learning page, you can find a variety of experiments with accompanying instructions. Find these in the 'KS2 Science – Summer 2 experiments' document.





Science news

Reach Out Reporter is an online primary science news service. Their aim is to engage primary school children with the wonders of the world around them using high-quality films and other learning resources. Allow the content to spark your interests – how can you demonstrate some of your learning? Click on the logos below for the Reach Out Reporter website and the accompanying YouTube channel (Twig Education).
