Spring1 2021
Class One
Year R/ 1 /2

Maths

Reception Maths

We will be reciting numbers to 100
Practising counting forwards and backwards from 20/10. Start to learn about estimation. Counting objects and actions. Start to use language such as more and fewer to compare sets. Finally investigating shapes and weights of objects.

Reception

Children will be learning about the book astro girl and then Penguins.

We will move onto phase 3 phonics and link this to work about these books, finding out about different places through art, design and investigations.

CLL and English

Descriptive writing — children will share stories about space. We will be working around the story of Bob, Man on the Moon over several weeks developing the different parts of the story.

We will continue to learn our phonics and SPAG.

Year One recapping phase 3/4 and learning phase 5.

Year two will be recapping phase 5 and learning phase 6.

Please remember Spell Shed is updated weekly inline with what we are learning in class.

Science - Yr1/2

Feeding and exercise

Reception chn will investigate light and where we live.

PSED - Yr1/2 Welcoming new life.

Reception chn will compare similarities and differences. Likes and dislikes between ourselves and others.

History - We will find out about Yuri Gagarin, The Space Race, Neil Armstrong, Helen Sharman and Tim Peake and other explorers such as Christopher Columbus, Arctic Explorers and many

This half
terms topic is

Explor- ers and
beyond!

Weekly routines

Reading books will be changed every Monday if they have been read over the weekend and the comments support a new book.

Children will read with an adult on a Thursday.
If necessary a new book will be issued.

PE is every Tuesday for ALL children.

Outdoor Learning is every Friday.

Art/DT - DT topic is pirates and picnics. Learning about healthy diets and food categories.

Reception Chn will bake on Thursdays.

Music - Music - creating music about a journey to space, finding out about music in space.

Rec Chn will move to music in different ways.

ICT - Following instructions, direction, inputting information and controlling space buggies! Using and applying skills in research

Year Two-

Children will work on recognising equal groups, begin multiplication using x symbols and multiplication from pictures. Then use arrays with doubles 2s 5s 10s. They will practise this by making equal groups and sharing.
We will learn about dividing by 2s
Odds and evens, dividing by 5s and 10s.
Finally moving onto Tally charts Pictograms, drawing pictograms and interpreting them.

How can you help at home?

Children will soon be given a reading book and spelling.
Encourage reading as often as and assist children in completing homework when given.
Please ensure all clothing, including coats and footwear are named where possible and your child has a water bottle in school daily.

Thank you!
