

'Bones and Bandages'

Our project, 'Bones and Bandages' links our learning in History, DT and Science.

History

The Ancient Egyptians – how they lived, what they believed, mummies and Tutankhamun.

DT

The children will build an Egyptian house using 'authentic' materials.

Science

Skeletons and muscles – the purpose of a skeleton and how we move.

Other Curriculum Subjects

Alongside our project, we will also be studying the following areas of the curriculum.

ICT

Using the internet safely and for research.
The children will do touch typing and develop their word processing skills.

PE

Working on their gymnastics and team building games.

PSHE

Being Me in the World.

Music

The children will be engaged in rhythm games as well as whole class Ukulele led by Musica Kirklees

RE

Creation

How can you help?

- Ask your child about their learning in school.
- Be aware of what your child is accessing online.
Help your child to research their science topics using the internet and non-fiction texts.
